Kansas Begins Here!

New Exhibit on Display

"A Stitch in Time" is a textile exhibit and looks at several of the museum's textile collection pieces including dresses and military uniforms. The exhibit explores the history of textiles and everyday articles of clothing we use or have used in the past. Be sure to stop by the High Plains Museum at 1717 Cherry to check out the new exhibit!

Trick or Treat At the Museum

October 31st, 2016

3:00 - 6:00 PM - 1717 Cherry

Utility Line Tree Trimming

Starting the end of September, the Electric Department will begin the annual trimming of the tree branches away from the primary and secondary electric power lines. OSHA rules and regulations addresses safety considerations related to line clearances as the trimming of any tree or brush that is within 10 feet of an electric power line.

City Wide Clean Up
will NOT take place this fall due to ongoing
city improvement projects.

Look for more information this Spring!

CUSTOMER Appreciation Week

October 10th - 14th

The City of Goodland would like to say **THANK YOU**
to their customers by providing refreshments
and give-a-ways the entire week!

Northwest Tech is excited to announce the launch of a varsity women's softball program beginning August 2017, and will have roughly 25-30 women on the team. The team will compete as a Division I program within the National Junior College Athletic Association (NJCAA). The addition of softball will provide more female student-athletes to help rebalance gender in the overall athletic program, spur additional enrollment, and provide another great program for the community to rally around.

Have you prepared your home properly for the rigors of fall weather? If not, you're in luck! Check out our **Fall Maintenance Checklist** to get your home ready to meet the Fall head-on!

Get an HVAC inspection – your furnace needs to be in tip-top condition.

Inspect your home's outer walls, ceiling, windows, doors and floors – its "envelope" or "shell".

Change your return filters on forced air heating systems.

There are few things worse than burst pipes in winter, so inspect your plumbing!

Get your roof checked out. If you don't take care of your roof, it won't take care of you!

Check or install weather stripping at doors, caulk around windows, adding storm windows or window films when applicable.

Open curtains and blinds to let sun in through windows to help heat your home and shut them at night to retain heat.

Seal up foundation and driveway cracks because during cold weather, moisture can seep into these areas and freeze causing surfaces to crack and split.

Goodland Community Thrift Shop
 "For the Community, By the Community"
 Monday -Friday 10AM to 5PM

Chamber News Corner

On Main Street between 11th & 12th

Monday, October 31st
5:00 - 6:30 pm
