May is Bicycle Safety Month

Safe Riding Tips

Before using your bicycle, make sure it is ready to ride. You should always inspect your bike to make sure all parts are secure and working properly.

Remember to:

- **Wear a Properly Fitted Bicycle Helmet.**
- **Adjust Your Bicycle to Fit.**
- **Check Your Equipment.**
- **See and Be Seen.**
- **Control Your Bicycle.**
- **Watch for and Avoid Road Hazards.**
- **Avoid Riding at Night.**

Many bicycle-related crashes resulting in injury or death, are associated with the bicyclist's behavior, including such things as not wearing a bicycle helmet, riding into a street without stopping, turning left or swerving into traffic that is coming from behind, running a stop sign, and riding the wrong way in traffic. To maximize your safety, always wear a helmet AND follow the rules of the road.
